

# Mississippi National River and Recreation Area

## Regional Park Loop

Brookdale Drive (river mile 862.1) to St. Anthony Parkway (river mile 857.5)

## Trail Notes and Gaps:

1. The Rice Creek West trail continues east from this point through local parks. This trail serves as an important connection between the Mississippi River and Long Lake.

2. Riedel Farm Estate was built as a homestead on 500 acres in the 1880's. In the mid-1920's it was converted into a summer cottage. The property now belongs to Anoka County and may be rented for special occasions. For more information, please call Anoka County at (763) 767-3920.
3. The North Mississippi Regional Park's entrance is just off of Mississippi Court. Take I-94 to the 49th Avenue exit, then onto Mississippi Court. Plenty of free parking is available
4. The south end of the North Mississippi Regional Park provides a trail connection to Webber Park. From Webber Park it continues northwest through many local parks in Hennepin County and eventually connects with the North Hennepin Regional Trail.
5. Look for a trail at 37th Avenue and St. Anthony Parkway. This short path provides a wonderful look at the Mississippi River and a way to avoid crossing the intersection with East River Road.
6. The trail extends east of the river along St. Anthony Parkway. Currently, this trail does not have a connection to the Downtown Minneapolis trails.
